

Here's a **Spectrum Rod Feeder (RF-8)** that gets power tool motor shafts (7/16 to 9/16 in. dia. by 8 in. long) to a feed magazine at more than 40 pieces per minute.

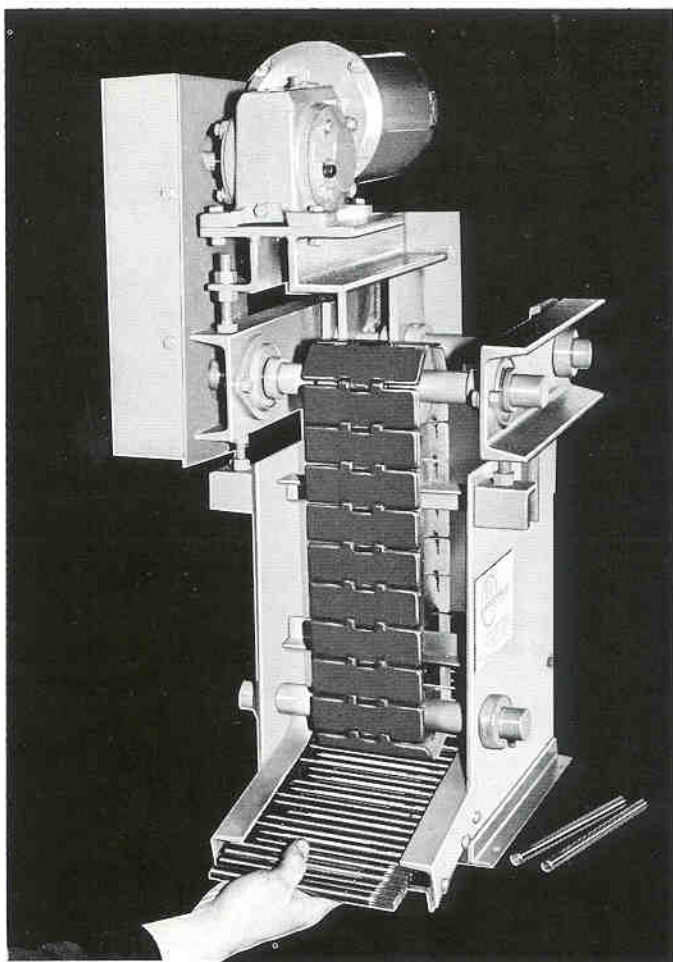

Similar units are available with diameter and length adjustments to handle families of stock sizes.

Storage capacity is tailored to your needs.

Current models are available for stock sizes up to 2½ inch diameter by 20 feet long.

Spectrum. The feeder people.

Let's get acquainted.

OK! We Admit...

... our rod feeder is like a powered toothpick dispenser.

And that's why it works.

Get **Spectrum** rod feeders for your wire, rod, bar and tube jobs.

Call or write **Spectrum** for rod feeders that work.
