

Specially adapted for brake hoses this SPECTRUM rod feeder meters 1200 pieces per hour to an end fitting assembly machine.

Adjustable from 6½ to 24 inch lengths the unit handles 7/16 and ½ inch diameter ribbed hose. Changeover takes less than five minutes.

Manually loaded bundles of hose are quietly released by an efficient pneumatic powered system. It works!

Treat yourself...

... to the benefits of SPECTRUM parts feeders.

You'll profit with our reliable, labor saving machines.

Call, write or drop in. We've got treats for you.
