

Spectrum builds standard feeders, specially tooled, to meet boltmakers high performance needs.

Quick changeover, quiet, high production features make Spectrum bolt feeders your best bet.

Bolt making experts set the specifications for Spectrum's standard line of feeders for these fine thread rollers:

Hartford Model No.	Bolt Dia. (Inches)	Pieces/Minute (Up To)
60-100	5/8 to 1-1/8	100
40-140	5/16 to 3/4	140
30-180	5/16 to 5/8	180
20-225	1/4 to 1/2	225
10-400	#6 to 3/8	400

Similar feeders are available to feed bolts to other process, inspection, packaging and assembly machines.

High performance...

... thread rollers can make hundreds of bolts per minute.

Satisfy their appetites with Spectrum's high performance bolt feeders.

Call, write, or drop in for feeders that keep bolt makers working; full time.

You'll profit!
