

This Spectrum, Model 40150, Storage Feeder gets a whole family of disc brake pads into a process handling system without tooling change over. Pads, from five to eight inches long, are oriented and fed out two paths at 90 pieces per minute. A pair of high speed conveyors and electromechanical selectors give uninterrupted, high production performance.

As You Like It...

Prime performance, fast delivery, and competitive prices go with **Spectrum** standardized machines.

A parts feeder from **Spectrum** will do your job best. Why? Because even the orientors, track, and escapements are built with standardized, time proven, components.

Try us. Call or write for the *best* answers to your parts feeding and assembly problems.
