

# *Payback: you'll be amazed!*

Feed the whole family of Water Pump Shafts.

We pre-orient, end select, and feed these parts to a heat treat system. Treated parts are then received, conveyed, and cooled to ambient by a flood of liquid. Cooled parts are escaped, elevated, and released to quality inspection. More than 60 designs (0.63 to 0.76 inch diameter X 2.4 to 6.24 inch long ) are handled, gently, at 19 to 40 pieces per minute. Changeover time: less than ten minutes.

Call: (734) 522-2160, Fax: (734) 522-4671
